PROJECT REPORT-I

AUDIO/VIDEO RECORDING OF THE KRISHNA
YAJURVEDA (TAITIRIYA SAMHITA) CHANTING OF THE
NAMBOOTHIRIS OF KERALA.

PREPARED AND SUBMITTED
BY
VADAKKE MADHAM BRAHMASWAM, VEDAPATASALA
M,G.ROAD, THRISSUR, KERALA,
FOR FAVOURABLE CONSIDERATION OF
SANGEETA NATAKA ACADEMY, GOVT OF INDIA

Introduction.

Vadakke Madham Brahmaswam at Thrissur Kerala is a premier Veda Teaching Institution having a long history of hundreds of years in teaching Vedas . This Madham was originally founded by first-order disciples of Adi Sankara along with other two Madhams (Naduvil Madham & Thekke Madham) adjacent to it. Originally all the three Madhams were monasteries (Sanyasi Madhams-abbots). But about six hundred years back, Vadakke Madham Brahmaswam became a centre of Vedas and Sanskrit learning. It is reliably believed that Arnos Padri (Rev. Fr. Arnos, an evangelist from Europe of 16th Century) who came to Thrissur and settled at a Village named Velur nearby actually studied Sanskrit from scholars of Vadakke Madham Brahmaswam. Fr. Arnos is a scholar who contributed much for development of Malayalam language and popularization of ideas of printing and publishing books , a deviation from the then popular way of writing on palm leaf manuscripts.

PROJECT

The chanting of Rigveda, Yajurveda and Samaveda of the Namboothiris of Kerala has so many peculiarities when compared to that of the other parts of India. The pronunciation of some letters, elaboration of Swaras and modes of chanting of the Prakrti and Vikrti Pathas of these Vedas in Kerala have so many unique features. Atharvaveda is not practiced in Kerala from very ancient times.

Though the Vedic tradition of Kerala has so many peculiarities, it is in a position of extinction in the present day due to so many social, cultural and historical reasons. The Jaiminiya Samaveda tradition of Kerala Namboothiris has become almost

extinct now. There are few good scholars in Rigveda and Yajurveda at present. But it is to be noted that this strong tradition of these Vedas also is in the verge of extinction as the new generation is not getting any kind of moral support to the study of Vedas and preserve them in the traditional way. Hence the need of preserving them at least in Audio/Video cassettes for the use of future generation is a work that has to be undertaken with all seriousness now.

The audio/video recording of the Rgveda chanting of the Namboothiris of Kerala has been done by different agencies and the copies of the same are available for study and research. Likewise, the audio/video documentation of the whole of Jaiminiya Samaveda of the Namboothiris of Kerala has been done by Sree Sankaracharya University of Sanskrit, Kalady, Kerala, a couple of years back. But the audio/video recording of the Yajurveda chanting of Kerala Namboothiris has not been done yet fully. This project is submitted for this purpose to Sangeeta Nataka Academy, New Delhi.

Text and Prakrti and Vikrti Pathas of Taitiriyā Sakha of Yajurveda.

The text of Taitiriyā Saka of Yajurveda followed by the Namboothiris of Kerala has samhitapatha, Padapatha and Kramapatha as Prakrtipathas and Kottu and Ghosha as Vikrtipathas. All these modes of chanting will be documented in Audio/Video cassettes as part of the project.

Sakshapatha or the chanting of Taitiriyābrahmana.

Apart from these, the Yajurvedins of Kerala practice the chanting from memory of the whole of the Taitiriyābrahmana related to Yajurveda in Swara. Only a few

Yajurveda scholars are there in Kerala now who are proficient in the chanting of the whole Brahmana. This is called Sakhapatha locally.

Time duration for recording.

The following is the time duration/hours expected for the recording of the each portion.

1. Samhithapatha	Whole text	40 hrs
2. Padapatha	whole text	80 hrs
3. Kramapatha	Whole text	140 hrs.
4. Kottu	Some manthras only as an example	10 hrs
5. Ghosha	Some Manthras only as an example	10 hrs
6. Sakha or Taitiriyabrahmana		40 hrs
	Total	320hrs.

Procedure of work/period of the project.

The scholars/resource persons have to practice the whole modes of chanting thoroughly before actual recording. At least three months of time is needed for practicing. The recording of two or three hours a day can be done in a calm and cool location in Thrissur Brahaswam Madham. So a period of five months will be needed for recording the whole proposed matter. After recording, proper editing of the recorded matter with introduction, explanations wherever necessary etc. has to be done. This can be done within a period of four months after recording.

Thus the total project can be completed a period of one year (twelve months).

Resource persons/co-ordinator.

The following Yajurveda Scholars of Kerala will be the resource persons in the project.

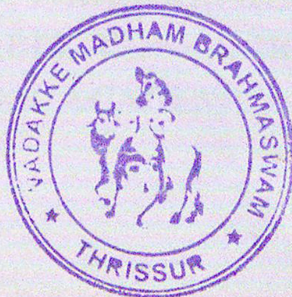

1. Animangalam Subrahmanyam Namboothiri
2. Panthal Vaidikan Damodaran Namboothiri
3. Kadalur Sridas.
4. Mallissery Raman Namboothiri
5. Kudappuzha Parameswaran Namboothiripad
6. Kadalur Narayanan Namboothiri
7. Taniyil Mathiyath Krishnan Namboothiri
8. Kunnamparambu Raman Namboothiri

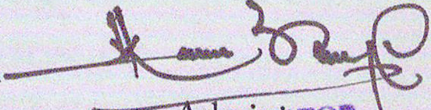

These scholars will chant all modes of Yajurveda and Taitiriya Brahmana in Swara.

Sri Padivattam Narayanan Namboothiri, Secretary, Vadakke Madham Brahmaswam, will be the co-ordinator of the project.

Budget estimate		
1.	Honorarium to the eight resource persons @ Rs. 20,000/- each	Rs. 4,00000.00
2.	Expenditure for technical assistance, cost of cassettes/DVDs, rent for camera and accessories, expenditure for light arrangement, electricity, other needs connected for recording of 320hrs	Rs. 4,50,000.00
3	Honorarium for the co-ordinator	Rs. 1,00000.00
4	Honorarium for two Yajurveda scholars, one technical expert and two Sanskrit/Vedic scholar for editing work (@ Rs. 30,000 each	Rs. 1,50,000.00
5	Contingency / Miscellaneous (travel, printing, stationary etc)	Rs. 1,00000.00
	TOTAL	Rs. 12,00000.00 (Rupees Twelve lakhs only)

Place:- Thrissur
Date:- 04-02-2014

Introduction.

Vadakke Madham Brahaswam at Thrissur Kerala is a premier Veda Teaching Institution having a long history of hundreds of years in teaching Vedas . This Madham was originally founded by first-order disciples of Adi Sankara along with other two Madhams (Naduvil Madham & Thekke Madham) adjacent to it. Originally all the three Madhams were monasteries (Sanyasi Madhams-abbots). But about six hundred years back, Vadakke Madham Brahaswam became a centre of Vedas and Sanskrit learning. It is reliably believed that Arnos Padri (Rev. Fr. Arnos, an evangelist from Europe of 16th Century) who came to Thrissur and settled at a Village named Velur nearby actually studied Sanskrit from scholars of Vadakke Madham Brahaswam. Fr. Arnos is a scholar who contributed much for development of Malayalam language and popularization of ideas of printing and publishing books , a deviation from the then popular way of writing on palm leaf manuscripts.

PROJECT

Vadakke Madham Brahaswam has now in possession around one thousand numbers of age-old palm-leaf manuscripts which are stored in shelves of its Vedic Research Library . Madham has not been able to digitize and identify them due to lack of facilities coupled with financial constraints. The proposed project is for digitizing the whole of such manuscripts and preparing a descriptive catalogue of the same for the use of researchers and academicians.

The partial list of titles of manuscripts that have been already identified and catalogued (but not digitized) are given in Appendix-1.

Photos of shelves in which manuscripts are stored now are attached herewith. Leaflets containing the information about Vadakke Madham Brahmaswam are also attached. (in CD form).

This institution has been recognized by HRD Ministry through MAHARSHI SANDEEPANI RASHTRIYA VEDA VIDYA PRATHISHTAN, UJJAIN, MADHYA PRADESH.

Steps involved in preservation and digitization program.

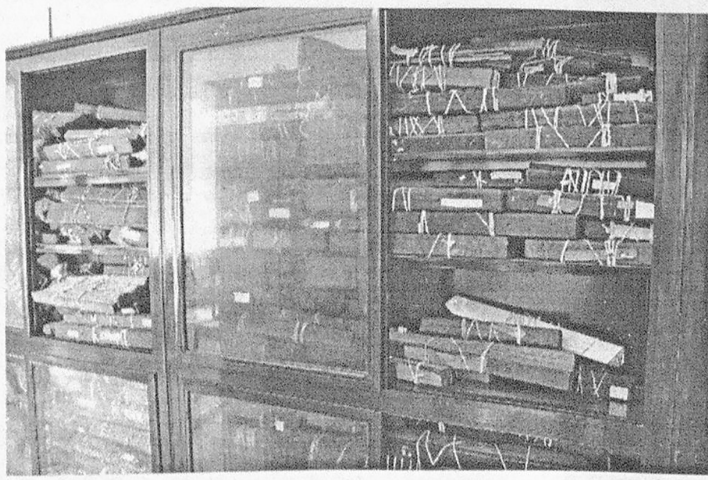

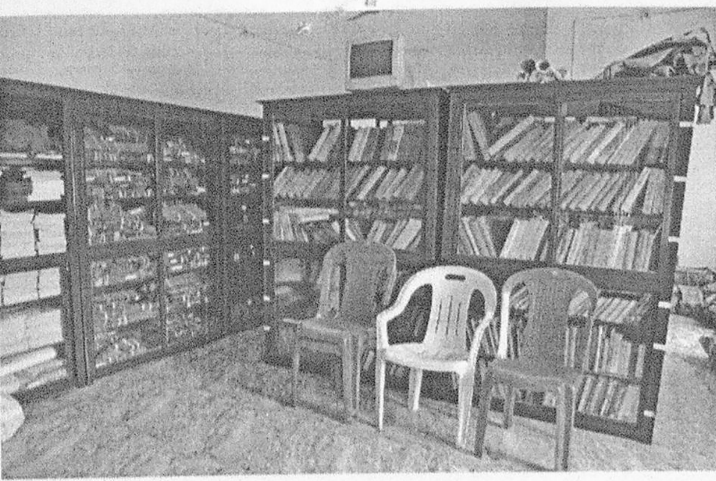

Step -1

First sort-out all manuscripts and divide into

- a) Normal or comparatively good
- b) Old and partially damaged
- c) Very old and highly brittle/damaged.

Step-2

Put identifying numbers or code numbers to all and pack separately on special pouches /covers so that no part is further missed during handling. Take notes of the beginning and end portions of each manuscripts for preparing the descriptive catalogue including the size of the manuscripts, script used, number of lines in each folio and number of letters/words in each line.

Step-3

Take one by one, sort each palm leaves, thoroughly clean and then apply special oil/chemical preservatives recommended by experts of the field. Microfilm or take digital image with special camera installed with accessories.

Step-4

Pack them back in special pouches and store in special steel admirals in easily identifiable way at designated places.

Step-5

Process and preserve the digital files in computer hard discs , take soft copies and also keep copies in well known digital libraries/servers of repute for use of research and study in consultation with them.

Step-6

Edit the notes/descriptions of the manuscripts taken and arrange them for printing/DTP for publishing the descriptive catalogue.

Manpower Requirement.

1. Technical expert for digitizing works - one person as Head of activities.
2. Assistant Technical Experts-2 persons to assist the Head.
3. A team of 3 scholars in Sanskrit for taking notes of the manuscripts for preparing the descriptive catalogue.
4. Co-ordinator of the project:- Sri. K.N. Neelakantan Namboothiri, Member, Vadakke Madham Brahmaswam Managing committee will be the co-ordinator of the project.
